#### **Project Description**

#### Principal's Priority

3

Provide interactive technology equipment and teacher training (15 document cameras, 15 sets clickers, 30 ipads and the peripherals such as headphones, and speakers) to outfit classrooms with the technology tools for the 21st Century.

#### **Benefits if Project is Funded**

Our teachers and staff are committed to meet the instructional needs of our diverse student population, and this grant would enable the training of teachers and the provision of all of our student classrooms to be outfitted with the document cameras, clickers, an ipad, headphones, and speakers to facilitate interactive, engaging lessons that are available in newer, or more affluent schools.

## **Impacts if Project is not Funded**

Although we continue to fundraise with our PTA to secure some of the above; however, we still have 15 classrooms unequipped or sharing resources which is not optimal for our teachers or students.
